

# STRIMMER GUARD

Patent N° GB2298843B

- Thousands of guards have been in use for a number of years and have proved to give maximum protection whilst greatly reducing maintenance and administration caused by complaints of strimmer damage and the unnecessary use of chemicals.
- The guard is complete and needs no special tools, parts or skills to fit. A volunteer tree warden could be reasonably asked to protect your planting schemes using this product. The guards are flat packed and a large quantity will fit into the boot of an average car.

A single guard will protect a tree up to 15cm diameter. For larger trees up to 30cm diameter simply join two guards together using the securing tabs.

## STRIMMER GUARD (STANDARD & OFFSET)

Quantity	Discount	Unit Price
1 to 49	0%	£2.72
50 to 99	5%	£2.58

• QUALITY ASSURED & CERTIFIED POLYMER COATING FOR MAXIMUM REUSE	N/A
• SUBTERRANEAN COMPONENTS	N/A
• BIO-DEGRADABLE	N/A

*The outer layers of the trunk carry the tree's nourishment. If they are damaged, the tree will die.*

*Strimmers are great for edges of paths, the bottom of walls, gates, poles etc., but they can seriously damage and scar trees.*

*There are many reported cases of 80% to 100% of a new planting scheme being killed in the first season as a result of strimmer damage.*

## The Arbortech Strimmer Guard is a proven solution
